

Food Safety!

Proper Food Handling Practices

Would you like to know proper food handling practices? Check out the below links:

- [Fight Bac!](#)
- [Be Food Safe](#)
- [Canned Foods](#)
- Food and Water Safety in Power Outages ([English](#) and [French](#))
- Get the Safe Food Facts ([English](#) and [French](#))
- For more information, view our [How to be Food Safe Video](#)

Food Safety Certification Training courses are offered throughout the year by our Public Health Inspectors.

For course information, dates and cost, check the [Food Safety Certification schedule](#).

An on-line course is also offered through <http://www.ingoodhands.ca/>

Food Poisoning

Thousands of people get food poisoning each year. Many people do not report food poisoning because they think the nausea, vomiting and diarrhea they are having is because of the "flu". If you think that you have food poisoning please call 705-474-1400 to report it.

Food Inspection Results and Complaints

Results of food inspection reports are available to the public on request by email: environmental.health@nbpsdhu.ca or by calling 705-474-1400 ext. 2400 or 1-800-563-2808.

Special Events and Farmers Markets

Are you planning on hosting a special event in your community or selling food at the local farmers market? Please fill in this Application form ([English](#) or [French](#)) for special event permits and [requirements](#) for food at special events as you may be subject to an inspection.
